  - Develop team schedules and assist in the successful onboarding and training of team members
  - Create and communicate a clear list of expectations and goals for team members to follow
  - Maintain frequent communication to offer encouragement, amend tasks, and provide updates on goal progress
  - Write project reports as necessary

EDUCATION

2023 - In progress

- **WeThinkCode**  
Systems Development

## CERTIFICATIONS

---

- **Test Automation University**
  - Pytest
  - Junit5
  - Python Programming
  - Web Element Locator
- **Simplilearn**
  - Python programming
  - Git
- **FreeCodeCamp**
  - JavaScript
  - Responsive Web Design

## PROJECTS

---

- **bhuggettiAPI**
  - Web api that allows people to submit interview questions
  - **Tech Stack:** Python, HTML, CSS, JavaScript, Flask, SQLite
- **Facial Recognition**
  - Engineered a robust Python application using OpenCV
  - **Tech Stack:** Python, opencv
- **File Manager**
  - Command-line tool for file management that offers functionality to edit, create, share, and locate files on your computer
  - **Tech Stack:** Python

## SKILLS AND COMPETENCIES

---

- Languages: Python, Java
- Web Development: HTML, CSS, JavaScript
- Version Control: Git, Gitlab, Github
- Project Management
- Automated Testing
- Excellent verbal and written communication
- Attention to detail
- Organizationl skills
- Time management
- Adaptability
- Critical thinking and problem-solving
- Leadership and Mentorship
